**Commodity Exim Report for 4th week of June, 2024 dated
26th June,2024**

**ITCHS 2933 – Heterocyclic Compounds with
Nitrogen**

**ITCHS 0713 - Dried Leguminous Vegetables, ,
Shelled, Whether or not Skinned or
Split**

Commodity EXIM Report

DGCI & S, I T J Division

The weekly EXIM Report published by ITJ Division of DGCI&S, Kolkata presents some basic insights into India's export and import trade patterns w.r.t. selected set of commodities identified each week in order to facilitate preliminary commodity group/sector specific analysis for better policy making.

2. For both categories of trades, one commodity group is chosen from the entire ITC-HS 4-digit Classification (latest being 2023-2024 classification system). The Indian Trade Classification based on Harmonized System has been adopted in India for Export and Import Operations. While India specific data is sourced from DGCI&S, M/o C & I Database, global export-import data of exactly those sets of commodities are sourced from UN-COMTRDADE Database.

3. As regards the time-period, this report outlines trade statistics over a period of four years. Currently (for reports being prepared in FY 2023- 2024) we are considering the time-period of 2020-2021 to 2023-2024(Financial year data). The latest finalized data available on the UN Comtrade Database is only up to year 2023 (Calendar Year) and on the DGCI&S Database up to March,2024. So, for each commodity group dealt in this report, trends from 2020 to 2023 have been showcased where data has been sourced from UN Comtrade and from 2020-2021 to 2023-2024 when sourced from DGCI&S database; however, for computation of commodity group's share in India's overall export basket and import basket we have had to use FY (financial year) data as all aggregate level data in India are represented in FY format.

4. In the instant report [4th weekly Commodity Exim Report of June,2024 dated 26th June, 2024] the following two commodities have been dealt with.

Export: Heterocyclic Compounds with Nitrogen (ITCHS Code – 2933) - In FY 2023-2024 this commodity group has 1.16% share in India's total Export value basket as per DGCI&S data base. India had occupied the top slot in export of this commodity with (4074.47 million USD) with 3.75% share of total global exports in the year 2023.

Import : Dried Leguminous Vegetables, Shelled, Whether or not Skinned or Split [ITCHS Code – 0713] – In FY 2023-24 this commodity group had share of 0.56% in India's total Import value basket as per DGCI&S data base. India having 24.01% share of total global imports of this commodity occupied the top slot in the 2023 and India's imports in this segment has gradually increased from US\$ 1568.30 million in 2020 to US\$ 3087.48 million in 2023.

EXPORT

Heterocyclic Compound classified as ITCHS Code – 2933 falls under Chapter – 29 (Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal, and articles thereof; imitation jewellery; coin) of Section- XIV (Natural or Cultured Pearls, Precious or Semi Precious Stones, Precious Metals and Jewellery) of ITC-HS classification.

India is engaged in the process of exporting this commodity and in 2023-2024 FY this commodity group has so far (April,23-March,2024) had 2.38% share in India’s total Export value basket as per DGCI&S data base.

Note: India’s Export includes re-export also

India’s top 10 destinations of Heterocyclic Compounds with Nitrogen by Percentage in 2023-2024

The total value of exports of Heterocyclic Compounds with Nitrogen from India amounted to US\$ 5084.58 million in 2023-2024 with an increase of over 30.04% compared to 2022-2023 figures of US\$ 3909.72 million. For, the period under review, India’s exports in this segment has steadily been rising from 2020-2021 till 2023-2024 with a major leap in 2023-2024 over 2020-2023. Singapore (US \$ 1374.68 million) has held the top slot as an export destination in this segment from India with 27.04% share of India’s total exports of this product group in 2023-2024. In second and third place were USA (US\$ 293.40 million) and UAE (US \$ 261.06 million) to where India exported around 5.77% and 5.13% share of Heterocyclic Compound in 2023-2024. Several Asian countries figure in the above list/table as leading export destinations in this segment.

Leading Exporters of Heterocyclic Compound with Nitrogen globally from 2020 to 2023 (Data labels signified for 2023)

World's 10 leading exporters of Heterocyclic Compounds with Nitrogen by percentage in 2023

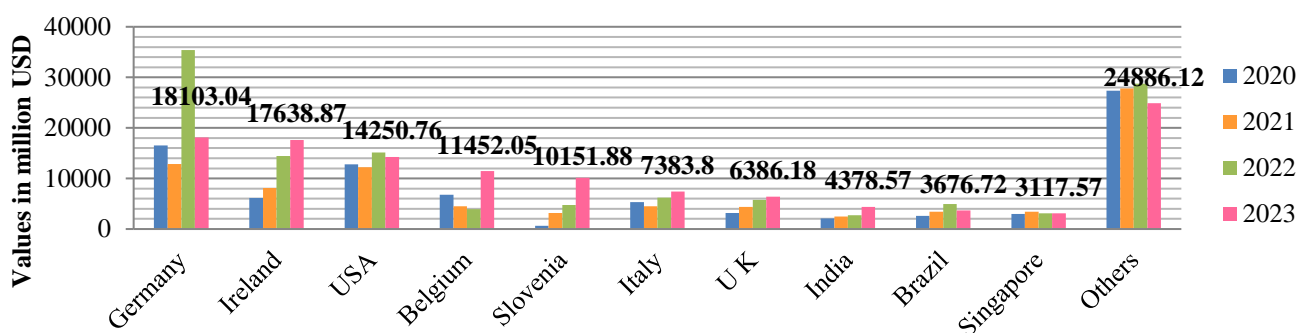

The Heterocyclic Compounds with Nitrogen exports world wide amounted to US\$ 108748.87 million in 2023 an increasing by 15.11% over the previous year. The lead Exporter in this segment has consistently been Switzerland (exporting goods worth a total of US \$ 25256.60 million) with a show of 23.22% share in 2023. Ireland (US \$ 24472.56 million) and China (US\$ 12162.94 million) with 22.50% and 11.18% shares of world exports in this segment in 2023 stood at 2nd and 3rd slot respectively. **India** (exporting goods worth a total of US \$ 4074.47 million) with a show of 3.75% share, stood at 9th slot in 2023 of world export of Heterocyclic Compounds with Nitrogen. India's share has gradually been increasing since 2020.

Leading Importers of Heterocyclic Compounds with Nitrogen globally from 2020 to 2023 (Data labels signified for 2023)

World’s 10 leading importers of Heterocyclic Compounds with Nitrogen (by percentage share in 2023)

The Heterocyclic Compounds with Nitrogen imports worldwide was US\$ 121425.56 million in 2023, decreasing by 3.01% from 2022 levels. Over the period under review global imports were at record high in 2022. The lead importer in this segment with highest share of imports has primarily been Germany (14.91% share in 2023) followed next by Ireland (14.53%) and USA (11.74%). **India** has 3.61% share world importing trade in this segment and occupied the 8th slot in 2023. Over the period under review Ireland was the 2nd largest exporter in global Heterocyclic Compounds in 2023, on other hand this country was also the 2nd largest importer of the commodity . Global import value in this segment had steadily increased from 2020 to 2023.

A difference is observed between global exports and global imports of this segment as per UN Comtrade statistics. In 2023 global imports exceeded global exports by US\$ 12676.69 million.

As per UN Comtrade database the top 3 importers of Heterocyclic Compounds with Nitrogen were **Germany, Ireland and USA**. These three countries had imported 2.12%, 0.34% and 3.82% share of their total import of this commodity from India in 2023 which are presented below :

i) Top 3 supplier nations of Heterocyclic Compounds with Nitrogen to Germany in 2023 (Percentage share)

(i) Top 3 supplier nations of Heterocyclic Compounds with Nitrogen to Ireland in 2023 (Percentage share)

(ii) Top 3 supplier nations of Heterocyclic Compounds with Nitrogen to USA in 2023 (Percentage share)

IMPORT

Dried Leguminous Vegetables, Shelled, Whether or not Skinned or Split as ITCHS Code – 0713 falls under Chapter -07 (Edible vegetables and certain roots and tubers) of Section – II (Vegetable Products) of ITCHS classification.

India is engaged in the process of exporting this commodity and in FY 2023 –24 this commodity group had share of 0.56% share in India’s total Import value basket as per DGCIS data base.

Table – 4

Source: DGCI&S, Ministry of Commerce & Industry

Note: India’s Import includes re-import also

The total amount of India’s imports of Dried Leguminous Vegetables, Shelled, Skinned or Split in 2023-2024 stood at US\$ 3775.18 million registering significant increase of approximately 91.70% over 2022-2023 levels. Over the period under review, India’s imports in this segment were at record high at US \$ 3775.18 million in 2023-2024. In 2023-2024, Canada stood out as India’s top importing partner in this segment with a share of 24.64% followed next by Myanmar (24.30%) and Australia (16.34%).

Total global imports of Dried Leguminous Vegetables, Shelled, Skinned or Split worldwide was US \$ 12858.39 million in 2023 registering an little increasing by 1.15% from 2022 levels. Over the period under review, global imports were at record high at US \$ 12858.39 million in 2023 and from 2020 to 2023 the there is an observable increasing trend till 2023.

India's imports amounted to approximately US \$ 3087.48 million in the year 2023 as per UN Comtrade database and **India** ranked 1st in the world with the share of 24.01% of total global imports of this commodity. The 2nd and 3rd largest Importer in this segment has been China (US \$ 1722.02 million) and Türkiye (US\$1180.16 million) with 13.39% and 9.18% share of hare of global imports of this commodity respectively in 2023.
