In other words, the venue for the auction is on an Internet website/ platform. website URL (<https://etenders.gov.in/eprocure/app>) would constitute the venue for the purpose of the on-line auction.

Award at the Reverse e-Auction: The bidder quoting the lowest price is normally allotted the item unless otherwise specified by the Client. Price obtained at any stage in the event is valid and legally binding on the bidder.

To become a Bidder in the auction, a business entity has to secure client approval for participation and also provide written assent to the General Rules and Regulations.

Start Time: Start time refers to the time of commencement of the conduct of the On-line auction. It signals the commencement of the Price Discovery process through competitive bidding.

Duration of the Reverse e-Auction: It refers to the length of time the price discovery process is allowed to continue by accepting bids from competing bidders. The duration of the auction would normally be for a pre-specified period of time. However, the bidding rules may state the conditions when the pre-specified duration may be extended/ curtailed.

Auto Extension Times: In the event of bids in the last few minutes of the Elapse time, the Bid Timings are automatically extended for a specified period from each such bid. Such Auto Extension shall continue until no bids are received in elapsed time The Inactivity Time for Auto Extension purpose is normally 5 minutes. DVC however, retain the right to change the same. The Inactivity Time applicable for the particular On-line Bid shall be communicated to the bidder if it will be set to a value less than 5 minutes.
