

EMBASSY OF INDIA

India-Maldives Bilateral Relations

India and Maldives share ethnic, linguistic, cultural, religious and commercial links steeped in antiquity. The relations have been close, cordial and multi-dimensional. India was among the first to recognize Maldives after its independence in 1965 and to establish diplomatic relations with the country.

2. Maldives' proximity to the west coast of India (barely 70 nautical miles away from Minicoy and 300 nautical miles away from India's West coast), and its situation at the hub of commercial sea-lanes running through Indian Ocean (particularly the 8° N and 1 ½° N channels) imbues it with significant strategic importance to India.

3. India has a pre-eminent position in the Maldives, with relations extending to virtually most areas. The importance of India's strategic role in Maldives is well-recognized, with India being seen as a net security provider. 'India First' has been a stated policy of the Government of Maldives (GoM).

4. India's relationship with the Maldives is free of any politically contentious issues. The one-time claim of Maldives to Minicoy Island was resolved by the Maritime Boundary Treaty of 1976 between the two countries, whereby Maldives has recognized Minicoy as an integral part of India.

5. India's prompt assistance during the 1988 coup attempt, led to development of trust and long-term and friendly bilateral relations with the Maldives. The immediate withdrawal of our troops when they were no longer required assuaged fears of any Indian dominance or territorial aspirations.

6. India was the first to assist Maldives during the 2004 Tsunami as well as the water crisis in Malé in Dec 2014. These three incidents (in 1988, 2004 and 2014) had established the advantages of India's proximity and capacity to come to Maldives' rescue in distress vis-à-vis any other country and are widely acknowledged by the government and people of Maldives. India's swift dispatch of 30,000 doses of measles vaccine in Jan 2020 to prevent an outbreak in the Maldives, and India's rapid and comprehensive assistance to the Maldives since the COVID-19 pandemic began has further reinforced India's credentials of being the "first responder".
