Commodity EXIM Report

DGCI & S, I T J Division

The weekly EXIM Report published by ITJ Division of DGCI&S, Kolkata presents some basic insights into India's export and import trade patterns w.r.t. selected set of commodities identified each week in order to facilitate preliminary commodity group/sector specific analysis for better policy making.

2. For both categories of trades, one commodity group is chosen from the entire ITC-HS 4-digit Classification (latest being 2025 classification system). The Indian Trade Classification based on Harmonized System has been adopted in India for Export and Import Operations. While India specific data is sourced from DGCI&S, M/o C & I Database, global export-import data of exactly those sets of commodities are sourced from UN-COMTRDADE Database.

3. As regards the time-period, this report outlines trade statistics over a period of four years. Currently (for reports being prepared in 2025) we are considering the time-period of 2022 to 2025. The latest finalized data available on the UN Comtrade Database is only up to year 2025 (Calendar Year) and on the DGCI&S Database up to July, 2026. So, for each commodity group dealt in this report, trends from 2022 to 2025 have been showcased where data has been sourced from UN Comtrade and from 2022 to 2025 when sourced from DGCI&S database; however, for computation of commodity group's share in India's overall export basket and import basket we have had to use Calendar Year data.
