Indian Trade Journal - Commodity Profile Report

Commodity Exim Report for 3rd week of October, 2026 dated 21st October, 2026

Export

ITCHS 2933– Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only

Import

ITCHS 1511 - Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified

Commodity EXIM Report
DGCI & S, I T J Division

The weekly EXIM Report published by ITJ Division of DGCI&S, Kolkata presents some basic insights into India's export and import trade patterns w.r.t. selected set of commodities identified each week in order to facilitate preliminary commodity group/sector specific analysis for better policy making.

2. For both categories of trades, one commodity group is chosen from the entire ITC-HS 4-digit Classification (latest being 2025 classification system). The Indian Trade Classification based on Harmonized System has been adopted in India for Export and Import Operations. While India specific data is sourced from DGCI&S, M/o C & I Database, global export-import data of exactly those sets of commodities are sourced from UN-COMTRDADE Database.

3. As regards the time-period, this report outlines trade statistics over a period of four years. Currently (for reports being prepared in 2025) we are considering the time-period of 2022 to 2025. The latest finalized data available on the UN Comtrade Database is only up to year 2025 (Calendar Year) and on the DGCI&S Database up to August, 2026. So, for each commodity group dealt in this report, trends from 2022 to 2025 have been showcased where data has been sourced from UN Comtrade and from 2022 to 2025 when sourced from DGCI&S database; however, for computation of commodity group's share in India's overall export basket and import basket we have had to use Calendar Year data.

4. In the instant report [3rd weekly Commodity Exim Report of October,2026 dated 21st October, 2026] the following two commodities have been dealt with.

Export : Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only [ITCHS Code –2933] -In The year 2025 this commodity group has 0.96% share in India's total Export value basket as per DGCI&S data base. India had occupied the top slot in export of this commodity (4272.44 million USD) with 4.82% share of total global exports in the year 2025 and occupied the 4th slot in the world in 2025.

Import : Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified [ITCHS Code –1511] – In The year 2025 this commodity group had share of 1.10% in India's total Import value basket as per DGCI&S data base. India having 20.94% share of total global imports of this commodity (8308.62 million USD) occupied the top slot in the world in 2025.

EXPORT

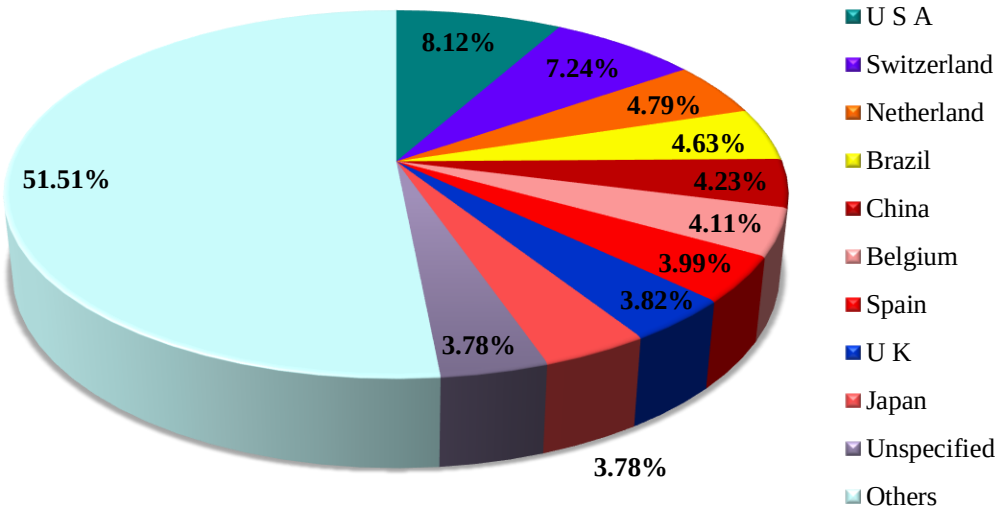

Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only classified as H.S. Code – 2933 falls under Chapter -29 (Organic chemicals) of Section VI (Products of the Chemical or Allied Industries) of ITC-HS classification. Chapter 29 contributes significantly to India's export earnings especially in recent few years.
India is engaged in the process of exporting this commodity and in 2025 this commodity group has so far had 0.96% share in India's total Export value basket as per DGCI&S data base.

Note: India's Export includes re-export also

India's top 10 destinations of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only by percentage share in 2025

In the year 2025 India had exported Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only worth of US$ 4272.08 million and registered an decreased of 20.44% compared to 2024 figures of US$ 5369.54 million. USA (importing US$ 346.88 million worth of goods in this segment from India) has held the top slot as an export destination in this segment from India with a significant 8.12% share of India's total exports in this segment recorded for the year 2025. In second and third place were Switzerland (US$ 309.49 million) and Netherland (US$ 204.71 million) to where India exported around 7.24% and 4.79% of the commodity respectively in 2025. India's exports in this segment has been dip in 2023 compare to the year 2022, leap in 2024 and again down in 2025.

World's Top 10 exporters of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only from 2022 to 2025
Data labels signified only for 2025

World's 10 leading exporters of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only (percentage share in 2025):

The Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only exports worldwide was US$ 88554.63 million in 2025, with an decreased by 3.41% compared to 2024 level. Over the period under review, global exports, were at record high in 2023. **India** (exporting goods worth a total of US$ 4272.44 million in this category) with a show of 4.82% share, stood at 4th position globally. The lead exporter in this segment was Switzerland (US$ 35428.64 million) with 40.01% share of world 12.55% share in 2025 respectively. India's performance has significantly improved over the years with experiencing a downwards in 2025.

World's Top 10 importers of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only from 2022 to 2025
Data labels signified for 2025

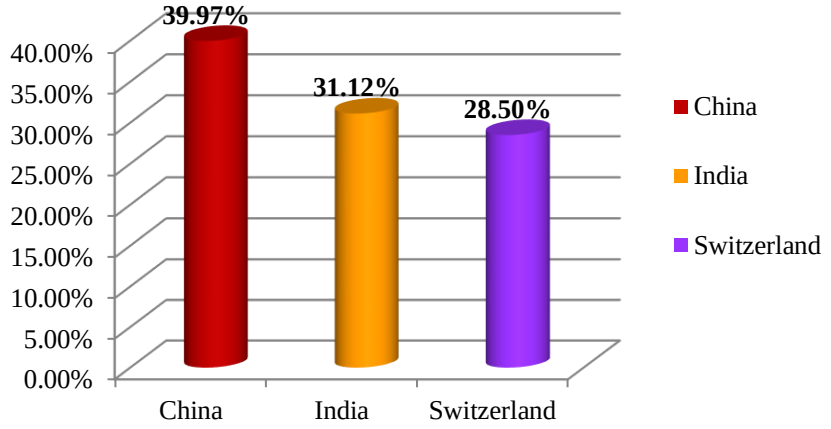

World's 10 leading importers of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only (percentage share in 2023)

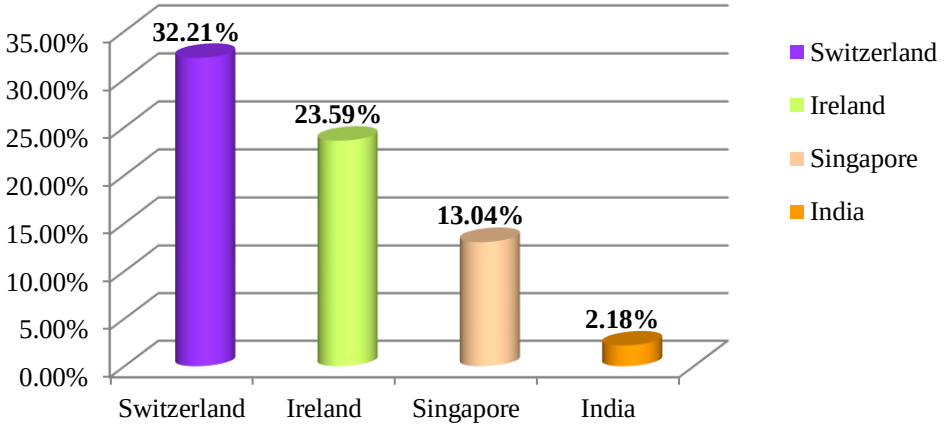

The Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only imports worldwide was US$ 91244.72 million in 2025, decreasing by 3.13 % from 2024 levels. The lead importers in this segment in 2025 have been Slovenia (20.44%), Germany (13.82%), and Italy (10.51%). **India** with a show of only 2.58% share in this category, stood at 11th position globally. Global import value in this segment has countinuous decreased from 2022 till 2025 with a major dip in 2024. Quite strikingly that number of top importers of this product are also the leading exporters of this products in the world with variations in their ranking within top 10.

As per UN Comtrade data base the top 3 importers of Articles of Jewellery and Parts thereof, of Precious Metal etc globally were **Slovenia, Germany and Italy**. These 3 countries had imported 31.12%, 2.18% and 6.67% share of their total import of this commodity from India in 2025 which are presented below:

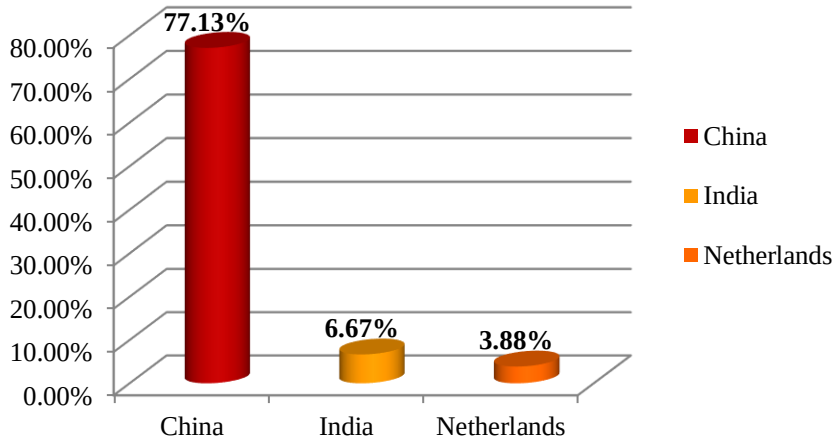

(i) Top 3 supplier nations of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only to Slovenia in 2025 (percentage share)

(ii) Top 3 supplier nations of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only to Germany in 2025 (percentage share)

(iii) Top 3 supplier nations of Heterocyclic Compounds with Nitrogen Hetero-Atom(s) only to Italy in 2025 (percentage share)

IMPORT

Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified classified as ITCHS Code – 1511 falls under Chapter -15 (Animal, vegetable or microbial fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes) of section III (Animal, Vegetable or Microbial Fats and Oils and their Cleavage Products; Prepared Edible Fats; Animal or Vegetable Waxes) of ITC–HS Classification.
India is engaged in the process of importing this commodity and in 2025 this commodity group had share of 1.10% of India's total import value basket as per DGCI&S data base.

Table – 4

India's Top 10 Source of Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified (ITCHS Code –1511)

Source: DGCI&S, Ministry of Commerce & Industry
Note: India's Import includes re-import also

The total amount of **India's** of Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified import in 2025 stood at US$ 8308.21 million registering a decreasing by 3.97% over 2024 figures of US$ 8652.19 million. Indonesia has persistently been India's lead import- country partner in this segment as observed from 2022to 2025. 40.63% share of India's total imports of Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified was sourced from Indonesia in 2025, followed by Malaysia and Thailand with shares of 31.86% and 14.43% respectively. **India's** import value in this segment has been steadily decreasing from US$ 11688.61 million in 2022 to US$ 8308.21 million in 2025.
It is observed that out of 10 leading source country partners 7 countries are Asian nations from where India imported Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified.

Worldwide import of Palm Oil and its Fractions, Whether or not Refined, but not Chemically Modified totalled to US$ 39675.68 million in 2025 recording a 7.52% up over the 2024 levels. **India** imported US$ 8308.62 million worth of the commodity in 2025, making it the top importer of the commodity group worldwide with 20.94% share of world imports. Pakistan (9.68%) and China (8.83%) lined up in 2nd and third place in 2025. Over the period under review the global imports in this segment has steadily been reducing from 2022 till 2024 with a major dip in 2023 and turned to upward in 2025. India's share in the global landscape has also shortly decreased from 21.13% in 2022 to 20.94% in 2025.
